# COLLECTIONS

A collection is a group of books on a single topic or genre.

It's a great way to see MORE of what you already know you enjoy!

We have almost 30 collections available in our Destiny catalog currently.

Wish there was one for a topic you don't see? Let us know!

Here are just a few:

## Featured Database

These are some of the detailed and spot-on ways that the book quoted on page 1,

They Both Die at the End, are described in NovelList. This powerful resource not only allows for wildly expanded searching (compared to our Destiny catalog), it also offers amazing read-alikes suggestions and author read-alikes.

If you have trouble finding great books, because you read too much or never at all, try NovelList!

Bonus: It flags books we own to make borrowing easy. 😊

Students make up the fastest growing group of podcast listeners. And it makes sense - podcasts are available on every imaginable topic: fantasy, economics, kid-created, scientific, and everything in between! Check out these podcasts at Apple podcast, Google podcast or Stitcher.

On his new ten-episode series, Joseph Gordon-Levitt will get into the nitty-gritty of how a wide variety of creative people do what they do. Listeners' questions will inspire conversations between Gordon-Levitt and a range of creative guests, from Hollywood notables like Rian Johnson and Seth Rogen & Evan Goldberg, to behind-the-scenes heavyweights like casting director Mary Vernieu, and from political visual artist Shepard Fairey to indie sonic songstress, Yuka Honda, and more.

Lore is a bi-weekly podcast (as well as a TV show and book series) about dark historical tales. Each episode explores the mysterious creatures, tragic events, and unusual places that fill the pages of history. Because sometimes the truth is more frightening than fiction.

Smash Boom Best is a debate show for kids and families from the makers of the award-winning podcast, Brains On! Every episode takes two cool things, smashes them together and lets you decide which is best. Our debaters use facts and passion to make their case -- teaching listeners how to defend their own opinions along the way.

THE TRUTH makes movies for your ears. They're short stories that are sometimes dark, sometimes funny, and always intriguing. Every story is different, but they all take you to unexpected places using only sound. If you're new, some good starting places are: Silvia's Blood, That's Democracy, Moon Graffiti, Tape Delay, or whatever's most recent. Listening with headphones is encouraged!
