BEGINNING CONVERSATIONAL FRENCH ... \$89

Proper pronunciation is important to good communication. Beginning Conversational French will help you master the best pronunciations. Simply click on each word to hear it spoken. Every word and sentence is also written out phonetically.

This course has been carefully crafted to ensure you will have no trouble pronouncing French words correctly. The first three lessons introduce the basics needed for most conversations in French, such as "please" and "thank you." You will also learn numbers, days of the week, months of the year, and telling time.

The entire course is structured in this logical, systematic method. After the introduction and basic conversation lessons, you will learn what to say at the airport. From the airport, you need to get to your hotel, so you will learn how to talk about transportation. The following lesson shows you how to talk to hotel employees. After you have settled into your hotel, you will probably be hungry, so the course also covers how to communicate in restaurants.

Each lesson also includes cultural tips. Hand and body gestures mean different things in different cultures. For example, do you know the proper way to point to avoid offending people in France? This course will tell you. You will be pleased with your quick progress, and you will be prepared for your next trip!

The dialogues and follow-up exercises of each lesson will teach you to communicate in Italian in a wide variety of settings. You'll be surprised by how quickly and easily you can learn many useful expressions in Italian! This course will make it simple to master your pronunciation of Italian. Essential words and phrases are written phonetically by using sounds that are familiar to you from English words. The audio feature lets you hear the words and phrases spoken aloud with just a click of your mouse. Short exercises are included with each lesson to help you reinforce what you've learned and gauge your progress, making it easy to pinpoint areas that you still need to review. The exercises also give you immediate feedback—you'll know whether you answered correctly as soon as you finish.

By the end of the second lesson, you will have already learned about the Italian language's impact on the world, the Italian alphabet, phonetics, and pronunciation, proper forms of address, expressions of courtesy, and how to make introductions. When you reach your final lesson, you will know how to ask for help, ask directions, navigate Italian shops, book a hotel room, order a meal, and much more! Cultural notes are included throughout the course to help you better understand Italians and their way of life.
