

West Seneca Central School District

For immediate release from Superintendent Matthew Bystrak

March 11, 2020

Dear members of the West Seneca school community,

Based on guidance received today from the Erie County Health Department concerning COVID-19, the district is canceling all **district sponsored travel by students and staff** outside of Western New York through the end of April. We will assess travel beyond this time frame in the coming weeks.

Please note that the situation with COVID-19 is continually evolving. We will continue to update the school community with new information/guidance as it becomes available.

Thank you.

Sincerely,

Matthew J. Bystrak
Superintendent of Schools
