

Blocked websites while using a Staff iPad

While using your iPad to access the Internet, you may find that certain websites are being blocked. The District web filter does not recognize you as a staff member while using the iPad, so you must authenticate to access certain content. If a page is blocked you will receive a page similar to below.

In the upper left corner of the page you will notice a **“Not you?”** link . If you click the link you will be prompted to login . Once prompted, enter your District username and password. This will allow access to the site for 30 minutes (if within filtering guidelines) as a staff member.

If you need further explanation please call the helpdesk 3832.
