I understand that the provisions of false information on this residency form could constitute a crime. I understand that the District reserves its right to recover from parents, persons in parental relations or other responsible parties the entire actual cost of educating a student (as established by the New York State Education Department), plus related costs, for the entire period that any non-resident student is enrolled in the District's schools without authorization and/or under false pretenses.

I hereby certify that the student listed on this residency form actually resides at the address specified above, within the West Seneca Central School District boundaries. I further certify that all information I provided on this residency form is true and correct. I understand that I must immediately notify the District if the residency of the student changes from the address listed on this form.

## NEW YORK STATE GUIDELINES FOR ADMINISTRATION OF MEDICATION IN A SCHOOL SETTING

School nurses, principals and other school personnel are often asked to dispense internal medication to school children. Internal medication can only be dispensed under the following policy:

1. **A written request from the parent/guardian.**
2. **A written request from the physician, which indicates the frequency and the dosage of the prescribed medication.**
3. **The medication is to be brought in the prescribed-labeled bottle by an adult to the office.**

**Please do not send aspirin, cold pills, cough drops, inhalers etc.** to school with your child. The dangers of this practice are possible choking and consumption of medication by another student resulting in serious consequences.

As stated above, medication will only be dispensed under the described conditions and this will be strictly adhered to within the school setting.

Please keep a copy of this notice for your records and forward the attached form to the school nurse.

# Health Information

***To Parents/Guardians:***

*Please keep the following pages for your records:*

1. Health Services Information (HS82a)
2. Letter from School Physician (HS82sc)
3. NYS Mandated Physical Examination Information (HS82d)

***For All Students:***

*The following are to be completed by your physician and returned in the enclosed envelope:*

4. Health Appraisal Form (HS324)
5. Record of State Mandated Immunizations (HS323)
6. Dental Examination Record (HS334)

## HEALTH SERVICES INFORMATION FOR PARENTS

HS82a - 6/18

**Physical Exams:** Physical examinations are required for students in Universal Pre-K or Kindergarten, grades 1<sup>st</sup>, 3<sup>rd</sup>, 5<sup>th</sup>, 7<sup>th</sup>, 9<sup>th</sup>, 11<sup>th</sup> and any student new to the West Seneca Central School District. Students classified with disabilities will need a physical exam every three years. School physicals will be scheduled unless the student returns a physical exam form from their own physician.

**Dental Certificates:** Students requiring physical exams are also required to have dental exam certificates completed by a licensed dentist. See the above Physical Exams for grades required.

**Preventative Screening:** During the school year students are screened for possible difficulties in the following areas:

- A) Vision • New students and grades UPK or K, 1, 3, 5, 7, and 11<sup>th</sup>
- B) Hearing • New students and grades UPK or K, 1, 3, 5, 7, 11<sup>th</sup>
- C) Postural Defects - Scoliosis • Grades 5-9<sup>th</sup>

**Notification of Defects to the Parents:** Parents are notified of health concerns found in all health appraisals and failure on vision, hearing and scoliosis screening by phone and paper referral sent home with your child. This notification should be returned as soon as possible stating the action taken by the medical examiner. The Health Office Staff welcomes information relative to your child's health. We are willing to assist you in referrals for health care, health education and health insurance.

**Continuous Health Records:** Please assist us in keeping your child's health record up-to-date by notifying the health office of any new physical condition, treatments, or immunizations for your child.

**Notification:** Parent's will be notified of serious injury or illness. Parents are responsible for the transportation of ill children to home. Emergency phone numbers and details will be obtained from the student's emergency information sheet. **PLEASE NOTIFY THE SCHOOL OF ANY CHANGES IN YOUR WORK, CELL, OR HOME PHONE NUMBERS.** If the parents are unable to be reached, the emergency contact sheet should reflect who is allowed to pick your child up if we are unable to reach you. Please make sure that these adults as listed HAVE ACCESS TO A CAR AND ARE AVAILABLE DURING SCHOOL HOURS.

**Attendance:** Please encourage regular school attendance as each day adds a step in his/her total development. However, please keep your child home if he/she shows any suspicious symptoms such as: sore throat, rash, colds, persistent cough, fever (anything over 100 degrees), "weepy lesions", inflamed eyes or symptoms of a contagious disease. Please call the school if your child is absent.

**Medication Policy:** If it is necessary for your child to take medication during school hours, New York State Law requires a **written NOTE FROM THE PARENT, and a written NOTE FROM THE DOCTOR.** The supply of medications must be brought to the Health Office BY AN ADULT IN THE PHARMACY CONTAINER. This law applies to all medications including INHALERS, PAIN MEDICATION, COUGH DROPS, AND ALL OVER THE COUNTER MEDICATION. Students who are self-directed for their medication administration must have medical provider and parental written permission and must see the nurse at the beginning of the year to review technique regarding proper handling of the medication. Also per the law (1999), for self-directed students, parents are encouraged to ask the pharmacist for an additional labeled container to be used for medications that must be given during field trips. For students who are not self directed, parents/guardians may attend the activity and administer the medication. The parent may personally request another adult who is not employed by the district to voluntarily administer the medication and inform the school in writing of such request. The student's health care provider can be consulted who may order the medication time to be adjusted or the dose eliminated. If no other alternatives can be found the medication will be administered by a licensed professional employed by the district. Forms for medication administration (parent, medical provider and self-directed) may be obtained from the Health Office.

**Physical Education Program:** Please inform the school if your child is unable to participate in a full physical education program (gym and swim). New York State Law requires a DOCTOR'S WRITTEN STATEMENT if a child is to be excluded from physical education for a length of time (i.e. over 1 week). A doctor's permission is required for complete re-entry into the physical education program after a serious illness, sutures, surgery, fractures or other injuries. Physical Education is a **REQUIRED** course to graduate. If your child has medical/physical limitations, the physician must complete a Medical Recommendations Form to help design a program to meet your child's individual needs.

**Care for Injuries:** School authorities may provide emergency care for illness and injuries which occur WHILE THE STUDENT IS IN SCHOOL. Treatment is limited to FIRST AID ONLY. HOME injuries are the responsibility of the parents/guardians.

**Sports:** If your child wears glasses and will be participating in interscholastic sports, **it is strongly recommended that he/she wear polycarbonate, impact resistant safety lenses or polycarbonate goggles over their eye wear for added protection.** It is also recommended that polycarbonate goggles be worn in addition to contact lenses to protect eyes that are impaired from injury.

If you have any questions regarding the health or health care of your student, feel free to call your School Nurse.

Dear Parent(s)/Guardian(s):

This letter is to inform you of our procedure in regards to children who are sick.

If your child is ill, it is often most appropriate to keep him/her home from school. A child who is sick will not be able to perform well in school and is likely to spread the illness to other children and staff. Please make arrangements for childcare ahead of time so you will have a place for your child to stay if he/she is ill.

Our school protocol states that you should not send your child to school if he/she had:

- Fever in the past 24 hours
- Vomiting in the past 24 hours
- Diarrhea in the past 24 hours
- Chills
- Sore throat
- Rash
- Strep Throat - must take an antibiotic for at least 24 hours before returning to school
- Bad cold (upper respiratory infection) with a very runny nose or bad cough especially if it has kept the child awake at night.
- Head lice - must be treated according to the nurse or doctor's instruction and are completely nit (egg) free, before returning to school
- Eye infection - must take an antibiotic for at least 24 hours before returning to school

If your child becomes ill at school and the school nurse feels the child is too sick to benefit from school or is contagious to other children, you will be called to come and take him/her home from school. It is essential that the health office have a phone number where you can be contacted during the day and an emergency number in the event you cannot be reached. Please be sure that arrangements can be made to transport your child home from school and that childcare is available in case of illness. Thank you for your cooperation.

Dear Parents and Person(s) in Parental Relation:

The West Seneca Central School District supports New York State in their recognition of the importance of medical supervision and the need for annual preventive physical examinations. In addition, the district recognizes the strong connection in academic achievement and physical, emotional and medical wellness.

## PLEASE NOTE:

New York State mandates physical examinations for:

- Students attending UPK or Kindergarten and Grades 1<sup>st</sup>, 3<sup>rd</sup>, 5<sup>th</sup>, 7<sup>th</sup>, 9<sup>th</sup> and 11<sup>th</sup>
- Students transferring into the West Seneca Central School District;
- Students with disabilities are required to have an examination every three years.
- The physical exam must be done within the last 12 months of the student entering school.
- Students participating in interscholastic sports require a physical annually.

Area physicians have designed a universal form to assist in streamlining the physical examination reporting system. *This universal form will be acceptable for both the mandated physical and sport physical.* (Forms will be available in the school main and health offices, downloading it from the district website and at most physician offices).

*If the physical exam is not completed, the school will work with you to schedule an exam with your own physician or will provide you an opportunity to have your child seen by the district's physician.*

The district encourages you to continue good health practices by having your child receive annual preventive physicals and by collaborating with the school health office to meet the state mandates. If you should have any questions or concerns, please contact the school health office. If at any time you lose your health insurance, contact the school nurse or social worker.

## RECORD OF NEW YORK STATE MANDATED IMMUNIZATIONS

HS 923-2/18

Student Name: \_\_\_\_\_

Date of Birth: \_\_\_\_\_

New York State Public Health Law, Section 2164 mandates that no school shall permit any child to attend or be admitted unless the parent provides the school with a certificate of required immunizations. The current NYS immunization schedule can be found at [www.health.ny.gov](http://www.health.ny.gov). Schools must have in their possession a complete list of your child's immunization record signed by a medical provider.

It is duty of the West Seneca Central School District to enforce the New York State Education Law. In accordance to this law, proof of the mandated immunizations or a note from your medical office indicating the date of a scheduled appointment is required within the time frame listed below.

- Students **within** NYS have **14 days** to provide a record of mandated immunizations.
- Students **outside** NYS have **30 days** to provide a record of mandated immunizations.

If you fail to provide this required information, you will receive an exclusion date in writing for your child.

Please contact your school nurse with any questions or concerns.

## New York State Immunization Requirements for School Entrance/Attendance<sup>1</sup>

**NOTES:**  
Children in a prekindergarten setting should be age-appropriately immunized. The number of doses depends on the schedule recommended by the Advisory Committee on Immunization Practices (ACIP). For grades pre-k through 11, intervals between doses of vaccine should be in accordance with the ACIP-recommended immunization schedule for persons 0 through 18 years of age. Doses received before the minimum age or intervals are not valid and do not count toward the number of doses listed below. Intervals between doses of vaccine DO NOT need to be reviewed for grade 12 except for interval between measles vaccine doses. See footnotes for specific information for **each** vaccine. Children who are enrolling in grade-less classes should meet the immunization requirements of the grades for which they are age equivalent.

Dose requirements **MUST** be read with the footnotes of this schedule.

Vaccines	Prekindergarten (Day Care, Head Start, Nursery or Pre-k)	Kindergarten and Grades 1, 2, 3, 4 and 5	Grades 6, 7, 8, 9, 10 and 11	Grade 12
Diphtheria and Tetanus toxoid-containing vaccine and Pertussis vaccine (DTaP/DTP/Tdap/Td) <sup>2</sup>	4 doses	5 doses or 4 doses if the 4th dose was received at 4 years or older or 3 doses if 7 years or older and the series was started at 1 year or older	3 doses	
Tetanus and Diphtheria toxoid-containing vaccine and Pertussis vaccine booster (Tdap) <sup>3</sup>	Not applicable		1 dose	
Polio vaccine (IPV/OPV) <sup>4</sup>	3 doses	4 doses or 3 doses if the 3rd dose was received at 4 years or older	4 doses or 3 doses if the 3rd dose was received at 4 years or older	3 doses
Measles, Mumps and Rubella vaccine (MMR) <sup>5</sup>	1 dose	2 doses		
Hepatitis B vaccine <sup>6</sup>	3 doses	3 doses	3 doses or 2 doses of adult hepatitis B vaccine (Recombivax) for children who received the doses at least 4 months apart between the ages of 11 through 15 years	
Varicella (Chickenpox) vaccine <sup>7</sup>	1 dose	2 doses		1 dose
Meningococcal conjugate vaccine (MenACWY) <sup>8</sup>	Not applicable		Grades 7, 8, 9 and 10: 1 dose	2 doses or 1 dose if the dose was received at 16 years or older
Haemophilus influenzae type b conjugate vaccine (Hib) <sup>9</sup>	1 to 4 doses	Not applicable		
Pneumococcal Conjugate vaccine (PCV) <sup>10</sup>	1 to 4 doses	Not applicable		

1. Demonstrated serologic evidence of measles, mumps or rubella antibodies or laboratory confirmation of these diseases is acceptable proof of immunity to these diseases. A positive blood test for hepatitis B surface antibody is acceptable proof of immunity to hepatitis B. Demonstrated serologic evidence of varicella antibodies, laboratory confirmation of varicella disease or diagnosis by a physician, physician assistant or nurse practitioner that a child has had varicella disease is acceptable proof of immunity to varicella.

2. Diphtheria and tetanus toxoids and acellular pertussis (DTaP) vaccine. (Minimum age: 6 weeks)

a. Children starting the series on time should receive a 5-dose series of DTaP vaccine at 2 months, 4 months, 6 months and at 15 through 18 months and at 4 years or older. The fourth dose may be received as early as age 12 months, provided at least 6 months have elapsed since the third dose. However, the fourth dose of DTaP need not be repeated if it was administered at least 4 months after the third dose of DTaP. The final dose in the series must be received on or after the fourth birthday.

b. If the fourth dose of DTaP was administered at 4 years or older, the fifth (booster) dose of DTaP vaccine is not required.

c. For children born before 1/1/2005, only immunity to diphtheria is required and doses of DT and Td can meet this requirement.

d. Children 7 years and older who are not fully immunized with the childhood DTaP vaccine series should receive Tdap vaccine as the first dose in the catch-up series; if additional doses are needed, use Td vaccine. If the first dose was received before their first birthday, then 4 doses are required, as long as the final dose was received at 4 years or older. If the first dose was received on or after the first birthday, then 3 doses are required, as long as the final dose was received at 4 years or older. A Tdap vaccine (or incorrectly administered DTaP vaccine) received at 7 years or older will meet the 6th grade Tdap requirement.

3. Tetanus and diphtheria toxoids and acellular pertussis (Tdap) vaccine. (Minimum age: 7 years)

a. Students 11 years or older entering grades 6 through 12 are required to have one dose of Tdap. A dose received at 7 years or older will meet this requirement.

b. Students who are 10 years old in grade 6 and who have not yet received a Tdap vaccine are in compliance until they turn 11 years old.

4. Inactivated polio vaccine (IPV) or oral polio vaccine (OPV). (Minimum age: 6 weeks)

a. Children starting the series on time should receive a series of IPV at 2 months, 4 months and at 6 through 18 months, and at 4 years or older. The final dose in the series must be received on or after the fourth birthday and at least 6 months after the previous dose.

b. For students who received their fourth dose before age 4 and prior to August 7, 2010, 4 doses separated by at least 4 weeks is sufficient.

c. If the third dose of polio vaccine was received at 4 years or older and at least 6 months after the previous dose, the fourth dose of polio vaccine is not required.

d. Intervals between the doses of polio vaccine do not need to be reviewed for grade 12 in the 2019-20 school year.

e. If both OPV and IPV were administered as part of a series, the total number of doses and intervals between doses is the same as that recommended for the U.S. IPV schedule. If only OPV was administered, and all doses were given before age 4 years, 1 dose of IPV should be given at 4 years or older and at least 6 months after the last OPV dose.

5. Measles, mumps, and rubella (MMR) vaccine. (Minimum age: 12 months)

a. The first dose of MMR vaccine must have been received on or after the first birthday. The second dose must have been received at least 28 days (4 weeks) after the first dose to be considered valid.

b. Measles: One dose is required for prekindergarten. Two doses are required for grades kindergarten through 12.

c. Mumps: One dose is required for prekindergarten and grade 12. Two doses are required for grades kindergarten through 11.

d. Rubella: At least one dose is required for all grades (prekindergarten through 12).

6. Hepatitis B vaccine

a. Dose 1 may be given at birth or anytime thereafter. Dose 2 must be given at least 4 weeks (28 days) after dose 1. Dose 3 must be at least 8 weeks after dose 2 AND at least 16 weeks after dose 1 AND no earlier than age 24 weeks.

b. Two doses of adult hepatitis B vaccine (Recombivax) received at least 4 months apart at age 11 through 15 years will meet the requirement.

7. Varicella (chickenpox) vaccine. (Minimum age: 12 months)

a. The first dose of varicella vaccine must have been received on or after the first birthday. The second dose must have been received at least 28 days (4 weeks) after the first dose to be considered valid.

b. For children younger than 13 years, the recommended minimum interval between doses is 3 months (if the second dose was administered at least 4 weeks after the first dose, it can be accepted as valid); for persons 13 years and older, the minimum interval between doses is 4 weeks.

8. Meningococcal conjugate ACWY vaccine. (Minimum age: 6 weeks)

a. One dose of meningococcal conjugate vaccine (Menactra or Menveo) is required for students entering grades 7, 8, 9 and 10.

b. For students in grade 12, if the first dose of meningococcal conjugate vaccine was received at 16 years or older, the second (booster) dose is not required.

c. The second dose must have been received at 16 years or older. The minimum interval between doses is 8 weeks.

9. Haemophilus influenzae type b (Hib) conjugate vaccine. (Minimum age: 6 weeks)

a. Children starting the series on time should receive Hib vaccine at 2 months, 4 months, 6 months and at 12 through 15 months. Children older than 15 months must get caught up according to the ACIP catch-up schedule. The final dose must be received on or after 12 months.

b. If 2 doses of vaccine were received before age 12 months, only 3 doses are required with dose 3 at 12 through 15 months and at least 8 weeks after dose 2.

c. If dose 1 was received at age 12 through 14 months, only 2 doses are required with dose 2 at least 8 weeks after dose 1.

d. If dose 1 was received at 15 months or older, only 1 dose is required.

e. Hib vaccine is not required for children 5 years or older.

10. Pneumococcal conjugate vaccine (PCV). (Minimum age: 6 weeks)

a. Children starting the series on time should receive PCV vaccine at 2 months, 4 months, 6 months and at 12 through 15 months. Children older than 15 months must get caught up according to the ACIP catch-up schedule. The final dose must be received on or after 12 months.

b. Unvaccinated children ages 7 through 11 months of age are required to receive 2 doses, at least 4 weeks apart, followed by a third dose at 12 through 15 months.

c. Unvaccinated children ages 12 through 23 months are required to receive 2 doses of vaccine at least 8 weeks apart.

d. If one dose of vaccine was received at 24 months or older, no further doses are required.

e. For further information, refer to the PCV chart available in the School Survey Instruction Booklet at: [www.health.ny.gov/prevention/immunization/schools](http://www.health.ny.gov/prevention/immunization/schools)
