3/23 and 3/25	School Pictures for in person cohorts- more info to come

### From the desk of Mrs. McCartan

"Learning is a treasure that will follow its owner everywhere." – Chinese Proverb

Our students at Clinton Elementary are taking enormous leaps in their learning. Those students who have struggled with learning are starting to take off. Students are reading fluently and with expression. Others are becoming math masters with their addition and subtraction facts. All of these accomplishments are due to all the work done at school and at home since the start of the school year.

Let us keep the growth going, with the coordinated efforts between home and school teaching our children how to be responsible and how repeated practice helps us grow. Remember to read to/with your child each night and practice their math facts. They also need to see how much the adults in their lives value the practice needed to grow as a reader and math students.

Thank you for your continued support at home!

Mrs. McCartan

### Social Worker Scoop

Hello March! March is a month that marks a new season Spring. It is also the month that marks a year of dealing with Covid 19. My advice for this month is try to look forward with a sense of hope for ourselves, our families and our kiddos. How strong we must be to handle a year full of so many challenges. A positive outlook can be difficult in these trying times but it can also be the answer to moving forward. I compliment all our families and kiddos for their hard work this year. Keep it up! We got this; we are the Clinton Cougars!
