A Note from our Principal:

Thank you for your support and encouragement during our first month of school. Your children have made an excellent transition into a new school year. It has been my pleasure, over the past several weeks, meeting and talking with many of you and having a great home/school connection.

A strong home/school connection makes academic prospects & opportunities stronger for your children. Some simple ways families can continue a strong home/school connection at home are:

*Asking your child open ended questions about their day. For example; the best part of your day was...? , The funniest thing that happened was...?

*Read with your child nightly to help improve their listening comprehension, love of reading and assess their learning.

*Practice at home with your child about what they are learning in class. For example: review math facts, have them measure ingredients when cooking, counting change, etc.

Creating routines and structures at home and school is the key. With a routine about homework times, chores, etc. your child will feel at ease and know what's expected of them

Please read the notes below about some of our upcoming events happening during the month of October, and to learn about opportunities to be involved with our PTA and our school.

Mrs. K. McCartan
