

FUNDING IS GENEROUSLY PROVIDED BY

PETER & ELIZABETH TOWER FOUNDATION

Explore & More's **Au-Some Evenings** are free monthly events that give children with autism and sensory processing needs, their friends and family an opportunity to play and learn together in an understanding and supportive environment. In addition to a fun night of play with access to the museum space and exhibits, we have special programming for families!

The evening features themed Art Studio projects, sensory exploration in our Tinkering Tank, therapy animals from the SPCA and student volunteers from SUNY Buffalo State's Exceptional Education program. Parent outreach materials including links for social stories, child development resources and play tips are always available. We look forward to having you join us!

Connect with Other Families

Special thanks to the Exceptional Education department from SUNY Buffalo State for providing volunteers who help support children and families develop language skills, promote social interactions, and facilitate learning through play.

Au-Some Evenings was created in 2012 and presented in partnership with:

Kathy Doody

Jana Mertz

Professor in Exceptional Education | The Arc Erie County Education

BUFFALO STATE
The State University of New York

Special thanks to the Exceptional Education department from Buffalo State for providing volunteers.

Friendly Reminder:

Children must be supervised by an adult at all times.
