Day of week: Wednesday
Date: February 26th

What we did in class:
1. I collected the purple “Section 11.2 Questions”. Turn yours in.
2. We spent time reviewing Punnett Squares. See me if you don’t understand how to fill in and interpret Punnett Squares.
3. We watched a video on Dogs to learn more about genetics. No work to make up.

What the students had for homework:
1. “Chapter 10 Quiz” corrections due Friday - sentences 5x each on lined paper stapled onto your quiz. Corrections count as an extra 100% (10/10) quiz grade!
