Day of week: Friday
Date: February 28th

What we did in class:
1. We spent time reviewing Punnett Squares. See me if you don’t understand how to fill in and interpret Punnett Squares.
2. We continued watching a video on Dogs to learn more about genetics. No work to make up.

What the students had for homework:
1. “Chapter 10 Quiz” corrections due Monday - sentences 5x each on lined paper stapled onto your quiz. Corrections count as an extra 100% (10/10) quiz grade!
