Important Questions	Answers	Why This Matters:
What is the overall deductible?	**In-Network**: $500 Individual/ $1,000 Family **Out-of-Network**: $4,000 Individual / $8,000 Family	Generally, you must pay all of the costs from providers up to the deductible amount before the plan begins to pay. If you have other family members on the policy, the overall family deductible must be met before the plan begins to pay.
Are there services covered before you meet your deductible?	**Yes**	Preventive care. This plan covers items and services even if you haven't met the deductible amount. But a copayment or coinsurance may apply.
Are there other deductibles for specific services?	**No**	You don't have to meet deductibles for specific services.
What is the out-of-pocket limit for this plan?	**In-Network**: $2,500 Individual / $5,000 Family **Out-of-Network**: $10,000 Individual / $20,000 Family	The out-of-pocket limit is the most you could pay in a year for covered services. If you have other family members in this plan, the overall family out-of-pocket limit must be met.
What is not included in the out-of-pocket limit?	Cost Containment Penalties, Premiums, Balance-billed Charges (unless balance billing is prohibited), health care services this plan doesn't cover	Even though you pay these expenses, they don't count toward the out-of-pocket limit.
Will you pay less if you use a network provider?	Yes. See www.independenthealth.com for a list of network providers.	This plan uses a provider network. You will pay less if you use a provider in the plan's network. You will pay the most if you use an out-of-network provider, and you might receive a bill from a provider for the difference between the provider's charge and what your plan pays (balance billing). Be aware your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services.
Do you need a referral to	No	You can see the specialist you choose without a referral.
